

CORPORATE AFFILIATES PROGRAM

The Corporate Affiliates Program is designed to develop and sustain strong collaborations between our industry and the department by offering meaningful engagement as well as student recruiting events. It recognizes our industry partners who have made substantial philanthropic commitments to sustain and grow the department.

Firms may spread their commitment(s) over multiple funds within the department. Firms who wish to impact the department's most pressing needs are encouraged to give to the Civil, Construction, and Environmental Engineering Enhancement Fund.
